Castel MIMI winery is a winery with a history that takes us centuries back when the first chateau was founded in Bessarabia by an outstanding personality Constantin Mimi. The real beauty of the castle has been hidden for many years under a layer of concrete and it is finally open for public since September 2016. Constantin Mimi has contributed to modernization of Bessarabian viticulture- he has planted new European varietal which is more productive and more resistant to diseases such as Aligote. All guests of this unique castle can savor delicious meals from local eco products served in a winery restaurant offering nice atmosphere and refined dishes.
